Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. EXAMINER'S AMENDMENT

ISSUE/MAILING DATE: 1/4/2019

DATABASE SEARCH: The trademark examining attorney has searched the USPTO's database of registered and pending marks and has found no conflicting marks that would bar registration under Trademark Act Section 2(d). TMEP §704.02; *see* 15 U.S.C. §1052(d).

APPLICATION HAS BEEN AMENDED: The trademark examining attorney is amending the application as follows. No prior approval or authorization from applicant or applicant's attorney is required. TMEP §707.02.

IDENTIFICATION OF GOODS

The identification of goods is amended to delete the duplicate identification of “electric food blenders”. As amended, the identification of goods of record is as follows:

Class 7: Electric food processors; Food processors, electric; Electric mixers; Electric food blenders; Electric hand-held mixers for household purposes; Hand-held electric-powered food processors

See TMEP §§1402.01, 1402.01(e).

WHAT HAPPENS NEXT AFTER EXAMINER’S AMENDMENT:

After the trademark examining attorney issues the examiner’s amendment, applicant will not receive a registration on the Principal Register for the applied-for mark until the mark makes it through the publication process and opposition period. The publication process starts once the trademark examining attorney issues the examiner’s amendment and the mark is approved for publication in the USPTO’s *Trademark Official Gazette*, a weekly online publication. The USPTO will then send a “Notice of Publication” to the applicant specifying the date its mark will publish in this publication.

The USPTO publishes applicant’s mark in the *Trademark Official Gazette* to provide third parties who believe they may be damaged by registration of applicant’s mark an opportunity to oppose registration of that mark within thirty (30) days from the publication date. An “opposition” is similar to a federal court proceeding, but this proceeding is held before the Trademark Trial and Appeal Board, a USPTO administrative tribunal of administrative judges who issue decisions on these matters. If a third party opposes registration of applicant’s mark by instituting an opposition proceeding, the USPTO will send applicant notice of this opposition. When this occurs, an applicant may wish to hire an attorney due to the complexity of these proceedings.

If no one opposes registration of the mark, and the mark was published based upon an applicant’s actual use of the mark in commerce or on a foreign registration, the USPTO generally registers the mark and issues a registration certificate within approximately twelve (12) weeks after the publication date.

If no one opposes registration of the mark, and the mark was published based upon an applicant’s bona fide intention to use the mark in commerce, the USPTO generally issues a “Notice of Allowance” within approximately eight (8) weeks after the publication date. Applicant then has six (6) months from the date of the Notice of Allowance to timely file a “Statement of Use” or to file a request for a six-month “Extension of Time to file a Statement of Use” (extension request). Extension requests are granted in six-month increments and a maximum of five extension requests can be filed after the issuance of the Notice of Allowance. If a Statement of Use is not filed within the six months after the Notice of Allowance issued, a Statement of Use must be filed within the time period of a previously granted extension request. The USPTO will only issue a registration certificate after the trademark examining attorney approves a Statement of Use.

For an overview of the time frames for when an applicant should file and the USPTO will issue documents related to a trademark application, see Trademark Application and Post-Registration Process Timelines. Forms for Statements of Use and extension requests, and additional requirements for intent to use applications, are available online at Intent to Use (ITU) Forms.

EXAMINER'S AMENDMENT

Issue date: September 10, 2019

USPTO database searched; no conflicting marks found. The trademark examining attorney searched the USPTO database of registered and pending marks and found no conflicting marks that would bar registration under Trademark Act Section 2(d). 15 U.S.C. §1052(d); TMEP §704.02.

The trademark examining attorney is amending the application as follows. No prior approval or authorization from applicant or applicant's attorney is required. TMEP §707.02.

MARK DESCRIPTION AMENDED

The redundant wording "The mark consists of" has been deleted from the mark description. Therefore, the following description of the mark replaces the current description of record:

The mark consists of a swirl that originates from the left of the center, that is thinner on both ends of the mark and thicker in the middle,

and moves counterclockwise in a circular motion, forming two rings that conclude with a sharp point in the top left.

See 37 C.F.R. §§2.37, 2.72; TMEP §§808 *et seq.*
